Quick Operation

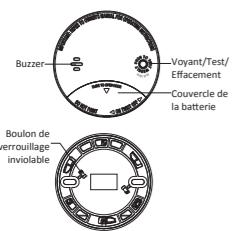

- Local Registration**
- Registration via APP**
 - Log in to the APP Store and input "Hik-Connect" to search the mobile client.
 - Download and install Hik-Connect to your phone.
 - After installing, tap to run the client.
 - Power on the security control panel.
 - Log in to the Hik-Connect and tap the icon "+" at the upper-right corner of the Hik-Connect page to add to the security control panel. You can scan the QR code on the device rear panel or on the package box, or input the device serial No. manually to add the device when the device is in the registration mode.
 - After adding the security control panel, tap the alarm status icon on the right of the security control panel's name to enter the Partition page.
 - Tap the "+" icon on the Partition page to add the peripherals.
- Registration**
- Unregistration**
- Formatting**
- Tilt Ceiling Installation**

Function introduction
The smoke detector can detect the smoke in the early stage of a fire hazard by applying the theory of advanced optical sensing principle. It is compliant to the standard of EN 14604.

- Low battery alarm
- Wireless signal transmission
- Low consumption/battery life
- Reports periodically

Apparence

Fonctionnement rapide

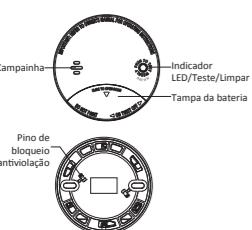

- Inscription locale**
- Inscription via l'application**
 - Panel de commandes de sécurité dans les 50 cm
 - Téléchargez et installez Hik-Connect sur votre téléphone.
 - Après l'installation, appuyez sur pour exécuter le client.
 - Allumez le panneau de commandes de sécurité.
 - Connectez-vous à Hik-Connect et appuyez sur l'icône "+" dans le coin supérieur droit de la page Hik-Connect pour ajouter le panneau de commandes de sécurité. Vous pouvez scanner le code QR sur la paroi arrière de l'appareil ou sur la boîte de l'appareil, ou saisissez manuellement le numéro de série de l'appareil pour ajouter l'appareil lorsque l'appareil est en mode inscription.
 - Après avoir ajouté le panneau de commandes de sécurité, appuyez sur l'icône "+" d'art de l'appareil à droite du nom du panneau de commandes de sécurité pour accéder à la page Partition.
 - Appuyez sur l'icône "+" dans la page Partition pour ajouter les périphériques.

- Désinscription**
- Formatage**
- Installation sur un plafond/murale**

Présentation des fonctions
Le détecteur de fumée est capable de détecter la fumée au tout début d'un incendie en appliquant la théorie du principe de détection optique avancée. Conforme à la norme EN 14604.

- Fonctionnalités
- Alarme de batterie faible
- Transmission de signaux sans fil
- Batterie à faible consommation, longue durée de vie
- Rapports périodiques

Apresentação

Operação rápida

- Registro local**
- Registro pelo app**
 - Entre na loja de aplicativos e digite "Hik-Connect" para procurar para celular.
 - Baixe e instale o Hik-Connect no seu telefone.
 - Após a instalação, toque em para executar o app.
 - Ligue o painel de controle de segurança.
 - Faça o login no Hik-Connect e toque no ícone "+" no canto superior direito da página do Hik-Connect para adicionar o painel de controle de segurança. Você pode escanear o código QR ou digitar QR code para transferir dispositivos ou talvez embalagem. Insira o número de série do dispositivo manualmente para adicioná-lo quando ele estiver no modo de registro.
 - Depois de adicionar o painel de controle de segurança, toque no ícone de status de armazenamento à direita do nome do painel para entrar na página Partição.
 - Toque no ícone "+" na página Partição para adicionar os periféricos.
- Registro**
- Cancelar o registro**
- Formatar**
- Instalação no teto ou na parede**

Funções
O detector de fumaça pode detectar a fumaça no estágio inicial de um risco de incêndio, aplicando a teoria do princípio avançado de detecção óptica. Ele está em conformidade com as normas da EN 14604.

- Recursos
- Alarme de bateria fraca
- Transmissão de sinal sem fio
- Baixo consumo e longa duração da bateria
- Avisos periódicos

- Installation**

Remark:
Please keep at least 15cm with the lamps or other electrical equipment. Please keep at least 15cm with the floor or ceiling. Make sure that the wall is strong enough to withstand less than 50N, as well as four times the weight of the device and the bracket.

After adding the security control panel, tap the alarm status icon on the right of the security control panel's name to enter the Partition page.

Tap the "+" icon on the Partition page to add the peripherals.

Tilt Ceiling Installation

Remark:
Please keep at least 15cm with the lamps or other electrical equipment. Please keep at least 15cm with the floor or ceiling. Make sure that the wall is strong enough to withstand less than 50N, as well as four times the weight of the device and the bracket.

After adding the security control panel, tap the alarm status icon on the right of the security control panel's name to enter the Partition page.

Tap the "+" icon on the Partition page to add the peripherals.

Installation

Remark:
Improper installation may cause the smoke detector not work normally, in order to ensure smoke detector work the best, we suggest you not install the detector near the real smoke source.

In order to obtain the maximum degree of protection, as soon as possible to issue a fire alarm, please try to install the product in a place where a fire may occur.

◆ If the house has more rooms, it is suggested to install this product in each corridor outside the bedroom. If more bedrooms faces different corridors, it is suggested to install the product in each corridor.

◆ If a house has one floor, we suggest to install it in every floor, from the left to the right.

◆ It is recommended to install this product in every bedroom, so you can hear the alarm sound when you were sleeping.

Registration via APP

Remark:
Please keep at least 15cm with the lamps or other electrical equipment. Please keep at least 15cm with the floor or ceiling. Make sure that the wall is strong enough to withstand less than 50N, as well as four times the weight of the device and the bracket.

After adding the security control panel, tap the alarm status icon on the right of the security control panel's name to enter the Partition page.

Tap the "+" icon on the Partition page to add the peripherals.

Installation

Remark:
Improper installation may cause the smoke detector not work normally, for the detector enter the alarm state or test mode, Hold the test key for 1 until the detector starts beep and the red LED flashes quickly, which indicates that the detector return to normal operating state.

Secure the mounting plate on the required place of the ceiling/wall.

Fix the smoke detector on the mounting plate with rotate it clockwise.

(Optional) Remove the tamper-proof lock bolt on the mounting plate.

Draw a horizontal/vertical line(10cm)on the required place of the ceiling/wall.

Secure the mounting plate on the required place of the ceiling/wall.

Fix the smoke detector on the mounting plate with rotate it clockwise.

(Optional) Insert the tamper-proof lock bolt.

Align the two screw holes with the drawn line (10cm), mark the centre line of the screw holes.

Remove the insulating strip.

Drill two screw holes with 1/16 inch (3mm)drill on the marked place. Insert the expansion screw tube in the hole. Take the smoke detector away from the gypsum dust.

Note: If the tamper-proof lock bolt is installed, the detector cannot be disassembled any more.

Important remark:
If the detector alarms when the smoke concentration is over the alarm threshold.

If the smoke detector is not the case is fully closed, please check whether the detector enters the alarm state.

◆ If the smoke detector is not the case is fully closed, please check whether the detector enters the alarm state.

◆ If the smoke detector is not the case is fully closed, please check whether the detector enters the alarm state.
